Our Dear, Dear Mother

Performed by: Raffi

Our dear, dear mother, daily provider, Earth be your name.
The time has come to honor you, to know you and to show our love.

You give us each day our daily grain, kissed by the sun and kissed by the rain.
Teach us now to find a way to care for you in our work and play.

Our dear, dear mother, daily provider, Earth be your name.
The time has come to honor you, to know you and to show our love.

Within the beauty of your silent spin, we know you're hurting and we feel your pain.
With your forgiveness we can start anew, we need a chance to make it up to you.

How did we grow so blind and deaf to your call?
Out of touch, out of mind, we wandered away.
But now we're lookin' to you to feel our way home.
Yes, and with hope in our hearts, we're comin' back home, home to you.

Our dear, dear mother, daily provider, Earth be your name.
The time has come to honor you, to know you and to show our love.

The time has come to honor you, to know you and to show our love.

Pollution Solution

Performed by: The Happy Crowd

Let's find the pollution solution,
This problem is making me think,
About ways we can clean up the air,
About ways we can show that we care, about one world,
It's everybody's world too.

Let's find the pollution solution,
This problem is making me ask,
Why can't we play in the ocean today,
Why they chop down all the trees in their way,
But it's our world, and everybody's world too.

There's a wrong way out of this,
We can leave everything alone,
There's a right way out of this,
We can make a home sweet home,
So let's do it the right,
Do it the right way.

Let's find the pollution solution,
This problem is driving me nuts,
It seems wrong to see someone's trash on the ground,
It's so wrong, now we can turn it around,
'Cause it's our world, and everybody's world too.

There's a wrong way out of this,
We can leave everything alone,
There's a right way out of this,
We can make a home sweet home,
So let's do it the right,
Do it the right way.

Let's find the pollution solution,
This problem is making me think,
About ways we can clean up the air,
About ways we can show that we care, about one world,

It's everybody's world too.

Ocean Treasure

Performed by: Renee Smith

My treasure is bluer than sapphires and oh, it sparkles and shines.
It reflects all the stars in the black velvet skies.
It's worth more than all diamond mines.
Take good care of this treasure.
Don't let it slip away.
Beauty like this can disappear.
Be aware of your oceans, your treasures each day.

My treasure is bluer than turquoise.
Deep below there's diamonds and pearls.
Her sunsets are colors like rubies and gold.
This treasure belong to the world.

I might seem quite poor if you're looking.
But I know richer than kings.
I've children and music and laughter and love.
Truly all the most valuable things.

Take good care of your treasure whatever it may be.
Hold what you have and don't grasp for more.
Be aware what we're all on this small planet for.

Help me care for our oceans.
They belong to you and me.
Treasure like this, you can't set a price.
So please say that together we'll all save the sea.

Little Purple Pansies

Performed by: InsideOut A Cappella

Little purple pansies, touched with yellow gold,
Growing in one corner of the garden old;
We are very tiny but must try, try, try
Just one spot to gladen, you and I.

In whatever corner we may chance to grow,
Whether cold or warm the wind may ever blow,
Dark the day or sunny, we must try, try, try
Just one spot to gladen, you and I.

Who Has Seen the Wind

Performed by: Allie Jo Thomas

Who has seen the wind
Neither I nor you
But when the leaves hang trembling
The wind is pass thro'
Who has seen the world
Neither you nor I
When the trees bow down their heads
The wind is passing by

Who has seen the wind
Neither I nor you
But when the leaves hang trembling
The wind is passing thro'

Who has seen the wind
Neither you nor I
But when the trees bow down their heads

The wind is passing by
But when the trees bow down their heads
The wind is passing by

We Love the Animals

Performed by: Michael Mish

We; We love the animals, we do
We love 'em big small and any way

We; We love the animals like you
up in the mountains and the valley-ways

If; We see a big gorilla
or meet an armadillo
we know that they've got feelings too

If; you see a butterfly-a
a fluttering right by ya
you know that she's alive like me and you

We; We love the birds and mice and bears
giraffes and the lions in their lairs

We; We are no different than they
We say "tomato" and they say "hay"

There is a funny King fish
who speaks to me in English
he jokes about the fishermen that got away

When; you see a frog a hoppin'
what keeps you from stoppin'
and saying "Hey how are ya doin' froggie baby"

If you hear a bird a-singing
Perhaps you should be thinking
That it would be fun to sing a song right back

If you hear a rooster crowing
It's just funny knowing
that you can crow just as loud as him, and

We; We love the animals we do
We love em big, small and by the way
We; We the animals like you; and we will treat them that way too

We love the animals, and we will treat them that way too.

Blow Your Spout

Performed by: Geof Johnson

Do you know the biggest animal,
That swims in the deep blue sea?
Looks like a fish, but that's not what it is,
Beautiful as it can be.

CHORUS:

Can you blow your spout, like a whale?
Can you blow your spout, like a whale?
Can you blow your spout, like a whale?
Can you blow your spout, that's what I'm talkin' about,
Can you blow your spout?

If you go out on the ocean
And you get on a boat to sail.
You'll be lucky if you see
A wonderful majestic whale.

CHORUS

Whales are happy on the ocean
And they swim wherever they want.
Their brain is big, they're smarter than a pig,
They're smarter than an elephant

CHORUS

If you go out on the ocean
And whales are out there too.
Be kind to every whale you find
And they will be a friend to you.

Toucan You Can

Performed by: Donna Lisa

My favorite bird doesn't say a word
He croaks like a frog instead
He loves to eat his papaya treat
While he tips back his tiny head

Toucan you can stay with me anytime
Toucan you can play in the tropical sunshine

Toucan's feet are a shiny blue
And he hops around from tree to tree
He swings his bill up into the air
Calling other birds noisily

Toucan you can stay with me anytime
Toucan you can play in the tropical sunshine
Toucan toucan you can you can
Fly through the rainforest
Toucan toucan you can you can
Share this mango with me

Toucan has a banana beak
And he lays it on his back at night
He likes to sleep in a hollow tree
With his tail feathers curled just right

Toucan you can stay with me anytime
Toucan you can play in the tropical sunshine
Toucan toucan you can you can
Fly through the rainforest
Toucan toucan you can you can
Share this mango with me

My Flower Garden

Performed by: A Cappella Cat

Calendulas and daffodils
And hyacinths and gentian frills
And bluebells and daisies and more I adore
Are all in my flower garden

Petunias and chrysanthemums
Nasturtiums and delphiniums
And pansies and lilacs and iris and more
Are all in my flower garden

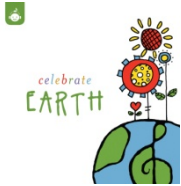

I pick flowers to help me show just what my heart wants to say
I can tell you I love you so with the perfect bouquet

Phlox and blue anemones
And honeysuckle for the bees
Dahlias, carnations and glads by the score
Are all in my flower garden

I pick flowers to help me show just what my heart wants to say
I can tell you I love you so with the perfect bouquet

Poppies, pinks and columbine
And roses for my Valentine
And lilies and freesias and tulips galore
Are all in my flower garden

My beautiful flower garden
I love MY glorious, wonderful, fabulous, beautiful flower garden

Water Conservation

Performed by: BenJammin and Analisa

Water conservation is important to the nation
to the world and everyone who drinks the water.
With a little contemplation, you will see that conservation
will help every man, woman, son and daughter.

If our water is polluted, then it can not be disputed
that it only hurts our planet and ourselves.
Our water, once delicious, now polluted kills the fishes
and brings danger to the drinking for our wells.

If we can not drink the water, as pollution spreads much broader
and animals and fishes start to die,
we may start to wish our nation worked for water conservation
when there's nothing left to drink but tears we cry.

Water conservation is important to the nation
to the world and everyone who drinks that water.
With a little contemplation, you will see that conservation
will help every man, woman, son and daughter.

Dancing in the Night Sky

Performed by: Ellen Edson

One little star, dancing in the night sky
Embers of daylight, fading away
With a shimmer, and a sparkle
And a fare thee well oh day
Another star dances
With a glimmer so gay

Two little stars, dancing in the night sky
Embers of daylight, fading away
With a shimmer and a sparkle
And a fare thee well oh day
Another star dances
With a glimmer so gay

Three little stars, dancing in the night sky
Embers of daylight, fading away
With a shimmer and a sparkle
And a fare thee well oh day
Another star dances
With a glimmer so gay

Millions of stars, dancing in the night sky
Embers of daylight, fading away
With a shimmer and a sparkle
And a fare thee well oh day
The sky is filled with dancers
That glimmer so gay

Millions of stars dancing in the night sky
Fare thee well, oh day!

Clean Air Lullaby

Performed by: Jack Pearson

Open up your window before you go to bed
The sun is sinkin' down and all the bedtime prayers are said
You can hear it if you listen, softer than a sigh
Through the curtains - a clean air lullaby

Sing sweet, Mother Earth, Breathe deep, Father Sky
And rock me to sleep with a clean air lullaby

Feel a gentle evening breeze blowin' through your hair
Then fall back on your pillow with the moonbeams everywhere
Just snuggle 'neath your blankets and breathe a sleepy sigh
To the rustle of a clean air lullaby

The wind comes off the ocean and blows across the plain
It goes into your lungs and then your blood and then your brain
It carries thoughts of far away, the wherefore and the why
Learn to listen to a clean air lullaby

RECESS MUSIC

The Earth is Your Mama

Performed by: John Cain

The earth is your mama, don't you treat her mean.
Everybody's got to keep their room real clean.
The earth is your mama, better treat her right.
All of us little children better stop this fighting right now.
Hey, Hey.
The earth is your mama, no matter who you are.
We're all floating on a rock spinning 'round a star.
If you try to run away from home you won't get very far.
You're acting like you think you don't know who you really are.

The earth is your mama.
The earth is your mama.

The earth is your mama, now, for heaven's sake.
If we don't clean up this mess her heart will surely break.
The earth is your mama, don't you treat her bad.
Don't you know that she's the best-est mama that you've ever had?

The earth is your mama.
The earth is your mama.
